::: Presentazione

La Divisione Valvolame della Ditta Assotherm, garantisce l'approvvigionamento di componenti per impiantistica in ottone, ghisa, ferro, come valvole a sfera, rubinetterie per riscaldamento, raccorderie per tubo ferro, rame, polietilene e multistrato, collettori, valvole di zona, valvole di ritegno, filtri d'impurità, valvole motorizzate, valvole a farfalla, filtri, valvole a saracinesca, raccorderia in ghisa e a saldare.

Un processo di costante monitoraggio della produzione e la grande attenzione ai cambiamenti migliorativi dei sistemi volti ad offrire sempre più alti vantaggi all'installazione, ci collocano come interlocutori di primo piano per la distribuzione degli articoli che produciamo e distribuiamo, aumentando di fatto la potenzialità dei nostri partners.

Chi da anni lavora con noi, ha imparato ad apprezzare il tempismo e la rapidità della gestione degli ordini, il tutto contornato da un elevato livello del rapporto qualità-prezzo.

Saremo pertanto lieti di valutare tutte le Vostre richieste con la massima attenzione (specie per ciò che riguarda prodotti a disegno) e con l'entusiasmo che è il segreto della nostra azienda.

::: In brief

Valves Division of the Company Assotherm grant the delivery of brass, cast iron, copper, aluminium and steel components for plumbing installation. Examples of our production is brass and aluminium fittings, valves as ball and butterfly pattern, heating valves, filters, gate valves and so on.

Thanks to very attentive monitoring of the manufacturing process and very high care about new solution to plumbing systems, in order to improve benefits, we proudly say we can offer big powerful advantage to our partners.

Our customers recognize us great organization and flexibility to solve and find solution to the plumbing field, competitive and high quality of the products.

We will be glad to evaluate all your enquires with best attention (specially concerning particular products according to your drawings) and enthusiasm which is the secret of our Company.
