ITALY - DRO (TN) | CENTRALE di FIES

REGENERATION

64 hours european competition
ITALY | LIVING BUILDING CHALLENGE CONTEST

By
MACRO DESIGN STUDIO
With
INTERNATIONAL LIVING FUTURE INSTITUTE

orange is the new green
beyond sustainability

What

It is a design workshop in which teams composed of young professionals are called to develop a project of sustainable requalification of an existing public building for the local community

Every team should respond to specific requirements defined in the announcement
Integrative design, synergistic development of the project and sharing of expertise are necessary prerogatives to tackle this challenge

The purpose of the competition is to show the best sustainable regeneration project for the existing building in terms of architecture, energy efficiency, livability and relationship with social, urban and natural context

Criteria used by the Jury to select the winning project will be announced at the beginning of the competition

Official language: **English**

Tools

Teams are composed by single participants

Every contestant will contribute with his own background, experience and vision to the achievement of the project objectives

Teams have to develop each project following the guidelines of the Living Building Challenge standard, version 3.0 (LBC 3.0)

The LBC handbook will be sent to each team leader before the workshop

Where

Centrale Fies (Dro – Trento, Italy) is a center for the creation and production of contemporary art including performing art, exhibit, site specific, video and any form of live performance and of events such as festivals, exposition and shows; but it is also a very unique location equipped to host corporate meetings, round-table conferences and workshops, see <http://www.centralefies.it>

Centrale Fies is the physical place where the competition will take place and is the home hosting the teams for their stay on site

Who

15 graduates with technical degree

3 teams: 5 participants each team

age under 35 years

selection through a European call

the team can work only inside the dedicated spaces
